steel, white & black

The thinking behind our approach  
Our doors may look effortlessly beautiful, graceful, elegant and modern - but that's all down to good old-fashioned hard work.

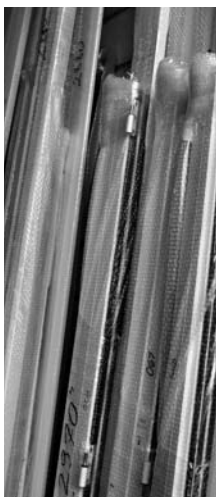

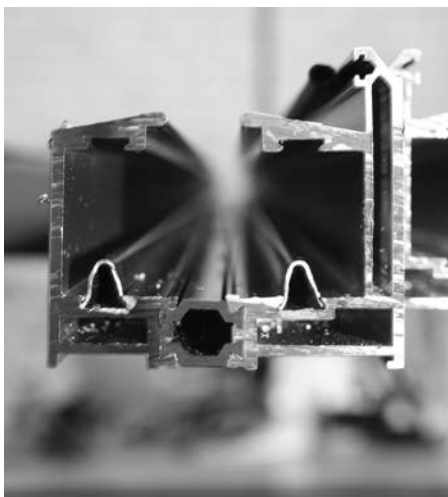

We are perfectionists. We care about using precisely the right components for the job. We use only the highest quality materials. We inspire all our staff to do their very best. And our exacting manufacturing process is second to none.

Only by giving you our very best can we help inspire you to open your mind to explore every possibility.

Our range of high quality lever handles have been engineered with the user in mind, producing timeless and ergonomic designs.

As standard we offer lever handle finishes in black, white, polished chrome and polished gold, as shown, along with black and white d - handles, slave handles and hinges.

An example of some of the most popular opening configurations are also shown. All doors can open into or out of the room and can fold to the left or the right.

Easifold3000

**Open your mind...  
and open up your home**

**There are so many ways  
that the Easifold 3000  
series can change the  
relationship between the  
interior and exterior of  
your home.**

**We can help you create  
exciting wide-open spaces  
with our beautifully made,  
exquisitely finished and  
cleverly designed  
folding doors.**

**Our doors are made by  
trained craftsmen in the  
UK, using only the finest  
materials and state of the  
art production methods.**

**Open your mind – and  
your home - to the infinite  
possibilities that we  
can offer.**

**Inspirational thinking**  
With so many design options available our doors can be customised to suit every home. And ultra slim sight lines between the glass make our doors more elegant, as well as maximising the lighter, more airy feel.

All our doors conform to current building regulations and have achieved the highest British Standards severe weather and thermal ratings.

**Inspirational thinking**  
Our unique free-glide running system uses near frictionless, maintenance-free needle roller bearings encased in tough nylon making all our doors a breeze to open or close. Take it easy with our maintenance-free aluminium frame that will not warp, rot or need varnishing. And relax knowing you are fully covered by our outstanding 10-Year manufacturer's guarantee.

### *Inspirational thinking*

**Choose from over 500 harmonious colours, ultra realistic wood effect finishes or even dual colour the doors for the ultimate individual touch. All doors are fitted with finger safe gaskets as standard, to protect inquisitive little fingers.**

**Choose from a range of standard handles or revel in the high quality durable stainless steel option. Our Fuhr multipoint locking system, internally beaded frame, high security hinges and anti-drill key cylinders all come as standard for your peace of mind.**

If we have inspired you to explore the many exciting possibilities of Easifold 3000 doors, then we would love to hear from you.
